[www.chemica.fr](http://www.chemica.fr)

Many models ex our  
Wellington stock available  
for immediate delivery

\*See our website [www.heatpress.co.nz](http://www.heatpress.co.nz) for full costing details - 2013

**KEY FEATURES:**

MAGNET CLOSING & OPENING HALVES PRODUCTION TIME EASES CLOSING WHICH ALLOWS IDEAL WORKING HEIGHT, NO BENDING TO CLOSE WITH EARLY-OPENING BUTTON

- Auto Opens & Swings
- Magnetically Closes (40cm x 50cm)
- **RLX Auto Model**

**\$NZ 2945.00 @ 0.61 Euro**

**Advantages**

- Parallel opening with automatic swing rotation for opening
- Automatic opening at the end of the count down
- Teflon attached on to upper platen (easy to change by unscrewing)
- Consistent and homogeneous heat control system (Aluminium Platen for superior heat distribution)
- Digital time & temperature readout
- Easy after sales service thanks to the interchangeable electronic unit
- Soft opening thanks to gas spring
- Early Release / Emergency stop Button for easily varying press time.
- Ideal for long run
- 10 Years warranty on heat platens electric resistance
- **100% Made in France**

**Technical information**

Opening	Parallel opening with auto swing rotation
Heat platen system	Flat electric resistance between two Mica layers
Max. temperature variation (PID technology)	3 to 5°C
Weight	54 kg
Dimensions H x L x D	555 x 480 x 900mm
<b>Heat Platen MAGNET RLX:</b>	<b>400 x 500 mm</b>
Power supply	230 V
Power consumption	2250 W
Amperage	10 A
Pressure	825 DecaNewtons
Production rate	Long run
Maximum Temperature	260°C
Standard of manufacture	CE

**Cleaning:** Heat platen must be cleaned with a dry cloth. Aggressive products (solvents, abrasive sponges) must not be used.

**2 of the Options available:**

**1. Set of 4 bottom plates, ideal for pressing smaller areas eg pockets and overlaying zips and seams. \$NZ485.00 @ 0.61 Euro.**

**2. Slide Carriage Carousel:**  
Set up one garment while another is pressing. Can be set up with 2 sizes of bottom plates  
**\$NZ 950.00 @ 0.61 Euro.**

**Ex Wellington stock at manufacturers prices see www.chemica.fr**

- Auto Opens (with Drawer)
- Magnetic Closing (40cm x 50cm)
- **54VD Model**

**KEY FEATURES:**  
 MAGNET CLOSING & OPENING  
 HALVES PRODUCTION TIME  
 EASES CLOSING WHICH  
 ALLOWS IDEAL WORKING HEIGHT, NO BENDING TO CLOSE WITH EARLY-OPENING BUTTON

**\$NZ 2410.00 @ 0.61 Euro**

- Advantages**
- Early release button for short pressings or emergency stops
  - **Automatic opening** at the end of the count down
  - **Soft opening** thanks to gas spring
  - **Extra handle** for safety and convenience
  - Teflon on upper platen (**easy to change by unscrewing**)
  - **Consistent and homogeneous** heat control system(Aluminium Platen for superior heat distribution)
  - **Digital time & temperature** readout
  - Ideal for **long runs**
  - **100% Made in France**
  - **10 years warranty** on electric resistance of heat platen

**2 of the Options available:**

**1. Set of 4 bottom plates, ideal for pressing smaller areas eg pockets and overlaying zips and seams. \$NZ485.00 @ 0.61 Euro.**

**Technical information**

Opening	Clam
Heat platen system	Flat electric resistance between two Mica layers
Max. temperature variation (PID technology)	3 to 5°C
Weight	41 kg
Dimensions H x L x D	420 x 450 x 715mm
<b>Heat Platen CLAM 54V:</b>	<b>400 x 500mm</b>
Power supply	230 V
Power consumption	2260 W
Amperage	10 A
Pressure	600 DecaNewtons
Production rate	Long run
Maximum Temperature	270°C
Standard of manufacture	CE

**Cleaning:** Heat platen must be cleaned with a dry cloth. Aggressive products (solvents, abrasive sponges) must not be used.

**2. Slide Carriage Carousel:**  
 Set up one garment while another is pressing. Can be set up with 2 sizes of bottom plates  
**\$NZ 950.00 @ 0.61 Euro.**

- Manual Opening
- with Drawer
- (40cm x 50cm)
- **54MD Model**

**KEY FEATURE**  
 BOTTOM PAD  
 SLIDE OUT  
 ALLOWS EASY  
 LINING UP OF  
 TRANSFERS

### Advantages

- Good value for money
- Teflon attached on upper platen **easy to change**
- Consistent and **uniform** heat control system
- **Digital time & temperature** readout
- Many options available for **more versatility**
- Ideal for **mid size runs**
- **10 Years warranty** on heat platens electric resistance
- **100% Made in France**

**\$NZ 1925.00 @ 0.61 Euro**

### Technical information

Opening	Manual Clam
Heat platen	Flat electric resistance between two Mica layers
Max. temperature variation (PID technology)	3 to 5°C
Weight	37 kg
Dimensions H x L x D	420 x 450 x 715 mm
<b>Heat Platen CLAM X:</b>	<b>400 x 500 mm</b>
Power supply	230 V
Power supply	2 250 W
Amperage	10
Production rate	mid size runs
Maximum Temperature	270°C
Standard of manufacture	<b>ECCCE ROHS standard</b>

**Cleaning:** Heat platen must be cleaned with a dry cloth. Aggressive products (solvents, abrasive sponges) must not be used.

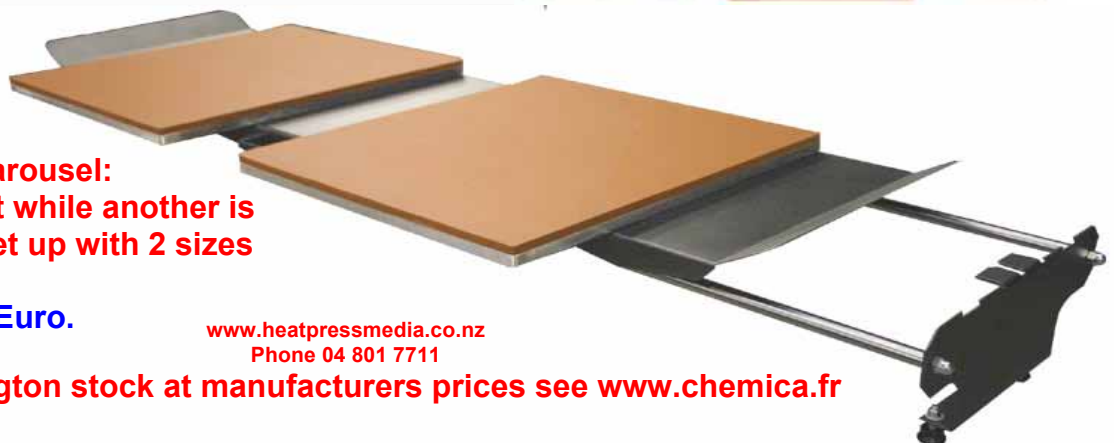

### 2 of the Options available:

**1. Set of 4 bottom plates, ideal for pressing smaller areas eg pockets and overlaying zips and seams. \$NZ485.00 @ 0.61 Euro.**

**2. Slide Carriage Carousel:**  
 Set up one garment while another is pressing. Can be set up with 2 sizes of bottom plates

**\$NZ 950.00 @ 0.61 Euro.**

- AIR Opens & Closes
- Manual Side Swing
- Air Press Model

**\$NZ 3416.89 @ 0.61 Euro**

### Advantages

- Air operated heat press with manual side rotation.
- Consistent and homogeneous heat control system
- **High hand electronic card:** 5 pre-programming available, productivity control, energy saving program, remote control. Control with codes possible
- Simplified programming for time, temperature, pre heating and heating
- **Sideway slider available as an option to increase your production at a low cost**
- **10 year warranty on heating element,**
- **100% Made in France**
- Heat press, **2 year warranty on the machine**

### Technical information

Opening	Parallel opening with manual side rotation
Heat platen system	Flat electric resistance between two Mica layers

The *Digital Combo* is a multipurpose swing-away heat press. This fully digital 14"x16" swing-away press boasts all of the digital features of the DK20S digital swinger. This includes Digital Temperature, Time, and a Digital Pressure Bar Graph, as well as programmable presets, dual prepress timer, adjustable alarms and a host of other digital features. The construction is a solid steel welded framework, the press features SuperCoil-Microwinding™ heater technology, and carries the same warranties as the Digital Knight line of presses. However, the popular success of the Digital Combo lies in its instantly interchangeable (*under 1 minute change-out time and hot swappable!*) system of heat platens and tables.

Available for this one press is every attachment necessary to professionally imprint T-Shirts, Caps, Plates, Tiles, Mugs, Memo Cubes, Miscellaneous Plastics, Woods, Metals, Fabrics and much more. The interchangeability is performed quickly and safely... and YES! the attachments work as good as or better than stand-alone presses! If your products range beyond just flat & fabric items, the Digital Combo is the most versatile machinery solution.

**DC16**  
**US\$1230**

All Geo Knight presses  
plus NZ\$680 for freight ex USA  
manufacturer to your door

**Ex stock**  
**Wellington**

### Key Features:

**12in1 press**

**6 sizes of flat bottom plates**  
**(less than a minute to change)**

**Cap Attachment with**  
**3 sizes of Cap bottom plates**

**Tile Attachment for thick items**

**Plate Attachment**

Caps are flawlessly printed with a curved heater block and curved bottom form with a special cap stretching device. Plug in the heater & drop on the table and you have a heavy duty swing-away cap press. Optional bottom forms available.

Due to its swing-away design and wide adjustment range, The Digital Combo excels at handling extremely thick items such as plaques, tile, woods, plastics, and other imprintable items that can not be pressed in clamshell presses.

The plate die platens feature quickly interchangeable components for allowing the circular heating element to press inside ceramic plates. Also included is a template tray and pad for centering the plate.

#### Specifications:

DC14 120V-1300W-10A / 220V-1500W-5A

DC16 120V-1500W-13A / 220V-1500W-7A

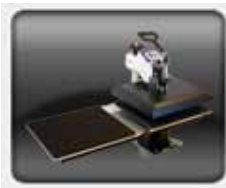

Dimensions (both): 18"W x 24"D x 20"H - 135 lbs

### DC Twin Shuttle Attachment

The Digital Combo Twin Shuttle Upgrade is a dual station Add-On for the DC16 swinger heat press.

Everyone knows that long term costs are not in the press equipment but in Labour Costs. Adding a twin shuttle removes wasted operator time waiting for a pressing cycle to finish. It also negates heat platen idle time while waiting for the operator to load and unload. Production is doubled with no additional labour cost.

The shuttle table creates less fatigue than swinging the head as well. Unlike easily tearable Teflon 'hammocks', this shuttle is solid-machined flat aluminium, holding any heavy, sharp, and rigid imprintable products without trouble.

Laying out fabric, T-shirts and garments is a breeze, with the two 14x16 silicone pads positioned just like the standard table configuration on the press.

For almost double the productivity per single operator, the Digital Combo Twin Shuttle Upgrade is unbeatable value.

See [www.heatpress.com](http://www.heatpress.com) for \$US prices for accessories  
(there is no charge for freight if we have already supplied you with the Geo Knight press)

- **USA/EUROPEAN vs CHINESE MADE – Key Differences**

**Thermostat:**

Chinese presses drop approx. 18-22°C before they heat up again.

(Up to ½ of transfers can start to lift after the third wash)

USA & European presses drop approx. 4-6°C before heating up again.

**Alignment:**

Chinese presses change after perhaps 400-800 openings & closings.

(Irregular heating & pressing results in poor washing of transfers)

USA & European presses change after perhaps 60,000 – 100,000 openings & closings.

# Heat Press Media Ltd

## Terms and Conditions of Rental June 10

### 1. DEFINITIONS:

Customer includes its employees, servants and agents.

The equipment includes all items, articles, accessories, the carton/box that the press was supplied in and documents (including operating manuals) supplied with the equipment.

### 2. DELIVERY AND RETURN OF EQUIPMENT

Delivery of equipment to the customer shall take place at the premises as set forth in the Rental Agreement at the expense (as specified below) of the customer. Return of the equipment by the customer is solely at the Customers expense and risk, and shall be to the premises of Heat Press Media Ltd from where the equipment was dispatched. The Customer agrees to ship the equipment by a carrier agreed to by Heat Press Media Ltd. The customer agrees to retain the Heat Press box and return the heat press in the same box or pay the costs of replacement of any such box if the box has not been retained.

### 3. CUSTOMERS COVENANTS

The Customer agrees with Heat Press Media Ltd that:

- a) The equipment shall remain the property of Heat Press Media Ltd and the Customer is only a bailee of the equipment on the terms and conditions as set out in the Rental Agreement.
- b) The Customer shall not sell, charge, pledge or part with possession of the equipment or the carton/box that the press was supplied in.
- c) The Customer shall keep the equipment at the delivery address specified in the Rental Agreement.
- d) The Customer shall use the equipment in a careful and proper manner and not interfere or tamper with or let anyone else do so.
- e) The Customer shall notify Heat Press Media Ltd immediately if any judgment or order is levied against the Customer or property of the Customer or if a petition is presented for the liquidation of the Customer or an Administrator or Receiver is appointed or a scheme of arrangement is proposed.
- f) The Customer shall permit Heat Press Media Ltd, its agents or servants to enter the premises where the equipment is located at all reasonable times in order to inspect the equipment.
- g) The Customer requires and will utilize the equipment for its business purposes as agreed to by Heat Press Media Ltd.
- h) The Customer shall keep the equipment in a safe and proper location.
- i) The Customer shall not alter or modify the equipment without the prior written consent from Heat Press Media Ltd.
- j) The equipment shall at all times, whilst in the care, custody or control of the Customer, be at the risk of the Customer.
- k) The Customer accepts full responsibility for all equipment rented, including its use in accordance with any operating instructions.
- l) Rental will apply until the equipment is returned to Heat Press Media Ltd possession.

### 4. CONSUMER GUARANTEES ACT 1993

The goods are acquired for the purposes of a business (where “business” is as defined in the Act), the Customer expressly agrees that the provisions of the Consumer Guarantees Act 1993 do not apply.

# Heat Press Media Ltd

## 5. SUNDRY

These terms and conditions constitute the entire agreement between Heat Press Media Ltd and the Customer with respect to the equipment and shall not be amended except in writing by Heat Press Media Ltd.

## 6. CUSTOMER DEFAULT, TERMINATION & REPOSSESSION

If the Customer is in breach of this agreement then Heat Press Media Ltd shall be entitled to treat this rental agreement as breached and repudiated by the Customer and with or without notice accept the repudiation and terminate this rental agreement whereupon the Customer shall immediately, at its own cost and expense, return the equipment to Heat Press Media Ltd and failing such return Heat Press Media Ltd may repossess the equipment and charge the Customer for all of its costs and expenses incurred in doing so. Any such termination shall not prejudice any right to recover any unpaid rental.

The Customer consents to Heat Press Media Ltd, its servants or agents entering its premises, or any other premises where the equipment is located, using such means as is necessary to repossess the equipment. The Customer must provide Heat Press Media Ltd with all reasonable assistance in order to locate and collect the equipment. If the equipment is not available for collection at the nominated time and/or place the Customer will be liable for any additional costs that Heat Press Media Ltd incurs.

7. RENTAL \$ \_\_\_\_\_ plus GST per month (If paid by monthly automatic payment going through on the same day each month). If the Automatic Payment stops for any reason then a \$50 surcharge or double the rental (whichever is the lesser of the two) applies. Heat Press Media Ltd has the right to terminate this rental agreement by giving 7 days notice if the rental is not paid by automatic payment on a set day each month. Our bank account number is 03 0515 0200634 00 with Westpac in the name of Heat Press Media Ltd. Use your name as reference.
